

FOUR CORNERS MINE -- ACT/015/014

1. The shafts, declines, boreholes, and portals will be covered or closed to prevent unauthorized or accidental entry and eliminate any safety hazard as per Rule M-10(2)(a) and Rule M-10(10). During a temporary suspension period these openings are commonly fenced to prevent entry, however, more permanent methods will be used to close them upon final reclamation.
2. No annual Operations and Progress Reports have been filed for the years 1977-1980, since the Mining and Reclamation Plan has not yet received approval.
3. The approval of the November 22, 1978 amendment request has been so noted in our files.
4. Atlas concurs with the suggested seeding rate and mix the Division proposed in the letter of March 2, 1979, for the Four Corners Mine.
